

Cuda Provides Easy Parts Cleaning for **SMALL ENGINE REPAIR**

Cuda Automatic Parts Washers use pressurized hot water and industrial detergents to clean parts automatically.

Cuda Aqueous Parts Washers enable small repair shops to speed the cleaning process, whether you are cleaning carburetors for a go-cart or bed knives and blade reels for lawnmowers. If you have parts that need cleaning, we can help!

Powerful spray jets blast a solution of hot water and biodegradable detergent from the top, bottom and sides, to thoroughly clean the dirtiest parts — freeing you and your workers to perform other, more profitable tasks. Time is money, so if you are spending a lot of time washing parts by hand, you should consider a Cuda automatic parts washer.

Cuda manufactures over 40 models of top-load and front-load automatic parts washers with load capacities ranging from 250 lbs. to 5,000 lbs. Contact us today and we will help determine the model that would best fit your needs...and your budget.

For more information on Cuda Aqueous Parts Washers, please contact the dealer listed below.
